

# TestWorks Dataset License

## 1. Purpose

The purpose of this license is to stipulate the conditions and procedures of use, rights, obligations and responsibilities of users, and other necessary matters when using the dataset that Testworks owns, such as copyright.

## 2. Definition

The definitions of terms used in this license are as follows. The meanings of terms not defined in these license provisions shall be governed by relevant laws and general practice of Republic of Korea.

- Dataset  
A set of data in order to train artificial intelligence.
- Provider  
A person who provides dataset in accordance with the provisions of this license.
- User  
A person (including an individual or a legal entity) who agrees to this license and uses the dataset provided by the provider.

## 3. Grant and Scope of Copyright License

- A. The provider allows the user to use the dataset within the scope stipulated in this license.
- B. The provider permits the use of dataset for the following purposes.
  - In case of developing new artificial intelligence service/product
  - When upgrading the performance of artificial intelligence products which have already been developed.
  - When testing artificial intelligence models and services
  - In case of artificial intelligence technology R&D
  - In case of participating in an academic conference/writing thesis
  - In case of participating in artificial intelligence contest

- For personal study
  - To educate students/trainees
  - When analyzing and reviewing the contents of data
  - In other cases where the provider deems it necessary in relation to the provision and use of dataset
- C. Users cannot deliver/share/provide dataset to third parties without the prior consent of the provider. If a user transfers/shares/provides dataset to a third party with the consent of the provider, the user must make the third party aware of the provisions of this license and obtain his consent, and if the third party violates the provisions of this license, the user must be jointly responsible with him.
- D. The user cannot modify/change the dataset without the prior consent of the provider.
- E. Users shall be solely responsible for legal disputes, issues, and civil and criminal lawsuits that could follow by using dataset.
- F. If a user violates the provisions of this license, the user loses the right to use the dataset immediately after the violation occurs, and the user must be legally responsible for infringement of rights including copyright.
